

# BEYOND OWLS

## CHAPTER 1: THE OWL STORY

Over 500 years ago a few owls joined a ritual, where a mineral almost magical was consumed by a group of about 30 owls. After the ritual these owls each day started gaining higher intelligence along with almost supernatural physical strength confined in the same body. One night on a journey each owl couldn't help but fly higher and higher.

The owls couldn't stop till they finally arrived to a newer more different land. They found themselves feeling comfortable on the gray surface of the moon. They inhabited 30 different lands on the moon and found this to be an amazing breeding ground. While their intelligence, wisdom and strength grew. Over time they became more self-aware and passed the wisdom on until they stopped and went to secret lands becoming very mythic in nature.

Today 500 years later these owls grew in population, and it is said there are 500 owls that exist today. And the older original owls are in the secret land where no one goes.

From the secret lands, new products come out that are utilized by modern owls to gain prosperity in their lands. The new software being released is rumored to change the way moon trading order works.

It is said that the mythic owl's council has determined the new world moon order to enrich everyone through their technology and then cause chaos between their lands.

Its felt by the whole population of the owls that something big is coming that will change everything.....
